PRESS RELEASE

The Town of Ellington will be starting our 2014 Spring Road Work during the week of June 9th, 2014. The Department of Public Works will be overseeing the paving of the following roadways; Brook Meadow Lane, Ketchbrook Lane, Flanders Lane, Forest Hill Road, Robinson Circle, Rothe Lane and Ketchbrook Circle.

The roadways listed received crack sealing late last fall and will now be paved. The paving will be done by Galasso Materials the State Contractor. The Public Works Department will have a fabric placed over the existing pavement prior to the application of 2 inches of pavement. This is done in an attempt to reduce reflective cracking from reappearing. Please do not park on the roadways starting on Sunday evening June 8th, the paving crews generally arrives early to prep the roads for paving.

Weather permitting; this operation should take no more than 5 working days. The Public Works Dept. will then assess the driveway aprons after the road paving is complete to insure proper blending of the road and driveways aprons.

If residents have question or concerns, they should contact the Ellington Public Works Department at 860-870-3140.
